

Atilze Named a Finalist in TM Forum Excellence Awards 2018

- *TM Forum's Excellence Awards champions the organizations that are taking the industry in new and innovative directions through collaboration and open innovation*
- *Winners will be announced at Digital Transformation World taking place in Nice, France on May, 14th 2018*

Petaling Jaya—April 9, 2018—Atilze Digital Sdn Bhd (“Atilze”), a wholly owned subsidiary of G3 Global Berhad (formerly known as Yen Global Berhad) today announced that it is a finalist in [TM Forum's 2018 Excellence Awards](#) in the Disruptive Innovation Award category. The Excellence Awards program honors the world's leading companies for their innovative achievements spanning digital transformation, business and IT agility, customer centricity, cross-industry partnering and collaboration, and product and service innovation.

TM Forum's 2018 Excellence Awards attracted nominations from leading communications service providers, suppliers and vendors from around the world. An annual awards program in its twelfth year, the Excellence Awards highlight companies that demonstrate commitment to the evolution of the industry through digital transformation, adoption and suite of best practices and standards that TM Forum delivers through their Collaboration Community.

As a finalist, Atilze presented the loE-first open hardware platform, known as the Atilze Sensor Hub. The Atilze Sensor Hub is designed to empower anyone to assemble their own industrial-grade loE device with full flexibility around sensors, network technologies, power supplies and deployment environments. This addresses a huge market gap for non-generic end nodes to cater for a wide range of industries while leveraging on new networks such as LoRa and NB-IOT. Through the Sensor Hub, companies can rapidly deploy loE solutions that is tailored to their specific requirements across precision agriculture, intelligent cities, smart buildings, smart environment, connected vehicles and more.

“Congratulations to the finalists of the TM Forum Excellence Awards 2018,” said Nik Willetts, CEO, TM Forum. “These organizations are at the forefront of our industry and are accelerating digital transformation across diverse ecosystems, delivering groundbreaking solutions through collaboration and open innovation. The leadership of these members continue to cement TM Forum's critical role in navigating the ever-changing digital ecosystem landscape.”

“The Atilze Sensor Hub has been successfully deployed in precision agriculture projects in Indonesia to enhance rice crop yields, which has proven to increase rice

production by 30% to 50% and water savings of 50%. Meanwhile in Malaysia, the Sensor Hub is used to improve the grade for chilli crops. We are continuously exploring other possible innovative use cases to improve the Sensor Hub's functionalities, such as integration with ADAS (Advanced Driving Assistance Systems), integration with feeder and oxygenation systems for smart aquaculture, weather stations on NB-IOT and LoRa networks for plantations," said Mr Gerard Lim, the Chief Executive Officer of Atilze.

Commenting further, Gerard added, "We are very much honored to be part of the TM Forum event and are proud to have been nominated as a finalist in [TM Forum's 2018 Excellence Awards](#) in the Disruptive Innovation Award category. TM Forum provides us excellent opportunity to connect with relevant leaders and partners for potential collaboration in the deployment of the Atilze Sensor Hub."

TM Forum will announce the winners of the Excellence Awards during a special ceremony at [Digital Transformation World](#) on Monday, May 14th, 2018. Winners will also receive recognition during the opening keynote perspectives session on Tuesday, May 15th, 2018. The TM Forum Excellence Awards 2018 are judged by an independent panel comprised of leading industry and subject matter experts.

-Ends-
