FOR IMMEDIATE RELEASE

ATILZE – NAMED AS ‘TOP 25 IOT SOLUTIONS PROVIDERS 2017’

KUALA LUMPUR – Monday 10 July 2017

Atilze Digital Sdn Bhd (“Atilze”), a wholly owned subsidiary of G3 Global Berhad (formerly known as Yen Global Berhad) has been honoured as the ‘Top 25 IOT Solutions Providers 2017’ by APAC CIOoutlook magazine.

The APAC CIOoutlook is a print and digital online magazine that provides a platform for the C-level corporate executives, such as the CIOs, CTOs and other senior decision makers for technology, along with CXOs of solution providers to share their experiences with the enterprise IT community in the Asia Pacific Region.

To be honoured as ‘Top 25 IOT Solutions Providers’, one of the main requisite for the company is its ability to demonstrate its innovative solutions and to show great potential in serving customer needs. The company’s top management and performance of 1,200 IOT Solutions Providers in the Asia Pacific region are analysed over the past months to determine the company’s credibility, as well as its growth, going forward.

“We are extremely thrilled with the recognition of being honoured as the ‘Top 25 IOT Solutions Providers’ for this year. This recognition is a testament to the efforts of Atilze’s awesome team, collaborating with our A-list clients and partners in making Atilze to who we are today. It is definitely an incredible achievement for us to be selected as Top 25 by APAC CIOoutlook magazine, amongst the other leading companies in Asia Pacific,” said Mr Gerard K M Lim, the Chief Executive Officer of Atilze.

The other companies who were selected together with Atilze included Sierra Wireless, Silver Spring Networks, KORE Wireless, Eseye Ltd, Aeris and GreenWave Systems; to name a few.

“I believe that the inclusion of Atilze in this Honour Roll for being the ‘Top 25 IOT Solutions Providers’ will elevate Atilze’s profile not only in Malaysia, but across the Asia Pacific region. We are delighted that our IOT solutions and services have met the high standards of APAC CIOoutlook’s criteria and at the same time are being acknowledged as innovative and impactful,” added Gerard.

The 'Top 25 IOT Solutions Providers' will be profiled in the Special Edition of the APAC CIO Outlook magazine as part of the 2nd annual edition on Internet of Things in July this year.
