RESERVOIR LINK SECURES SECOND CONTRACT WIN FOR 2023

Kuala Lumpur, 26 January 2023 – Reservoir Link Energy Bhd (“**Reservoir Link**” or “**Group**”), an energy related services provider, announced that its 51% owned subsidiary Founder Energy Sdn Bhd, has received a purchase order from Fabulous Sunview Sdn. Bhd, a wholly-owned subsidiary of Sunview Group Berhad, for the supply of mounting structure for a large-scale solar photovoltaic plant development located in Malaysia. The project is valued at RM11.4 million.

Under the scope of the contract, Reservoir Link will supply solar mounting system which are expected to be delivered between January to April 2023 to the project location.

Reservoir Link Executive Director Thien Chiet Chai said, “Within the first month (of the year), Reservoir Link has already been awarded its second contract under its renewable energy arm. We are confident that we will be able to win more contracts in the coming months ahead given our solid industry presence in the renewable energy space. Looking ahead, we will also be strategically on the lookout for more diverse business opportunities where we will be able to further widen our offerings in renewable energy not just limited to solar. We are open to explore other alternatives in renewables which will ideally put us in the optimum position to further scale up our renewables front in tandem with the growing uptake in renewables.”

About Reservoir Link Energy Bhd (“Reservoir Link”)

Reservoir Link was incorporated in Malaysia under the Companies Act 1965 on 2 December 2014 as a public company under its present name and deemed registered under the Companies Act 2016.

Reservoir Link is an investment holding company whereas its subsidiaries are primarily involved in the provision of oil and gas well related services, which include well perforation, leak repair, testing, wash and cement as well as wireline. Reservoir Link is also involved in providing improved oil recovery services, laboratory studies & expert interpretative services on flow assurance & formation damage and provision of sand management solutions.

More recently, Reservoir Link added to its list of services the provision and implementation of solar photovoltaic projects for residential, commercial, and industrial properties, large scale solar photovoltaic plants which include supply and installation of solar mounting systems and other engineering works involving civil, structural, mechanical and electrical engineering works.
