PLYTEC AND CIDB E-CONSTRUCT JOIN FORCES TO EXPEDITE DIGITAL TRANSFORMATION WITHIN THE CONSTRUCTION INDUSTRY

Kuala Lumpur, 3 January 2024 – Construction engineering solutions and services as well as trading and distribution of building materials company, PLYTEC Holding Berhad (“**PLYTEC**”) today held a signing and exchange of Memorandum of Corporation (“**MoC**”) ceremony at CIDB myBIM Centre Kuala Lumpur.

The MoC was signed between BIM Engineering Solution & Technology Sdn Bhd (“**BEST**”), a wholly-owned subsidiary of PLYTEC and CIDB E-Construct Services Sdn Bhd (“**CIDBEC**”), a wholly-owned subsidiary of Construction Industry Development Board Malaysia (“**CIDB**”). The MoC, which is effective from 3 January 2024 for a period of three (3) years, is in relation to the enhancement of national Building Information Modelling Library (“**BIM**”) and digital technologies adoption ecosystem.

The cooperation between BEST and CIDBEC aims to empower and expedite the digital transformation of the professional service and construction industry, with focus on the development of smart cities via the implementation of BIM technology.

The cooperation will facilitate the standardisation of the information management system for digital twins of the national built environment; sharing of the latest industry best practices, product innovations and technical resources; training of the disruptive skill sets to uplift competency and capacity of human capital; fostering cross industry collaboration to national technical and vocational education and training (TVET) programs and science, technology, engineering and maths (STEM) education initiatives thru myBIM Library and accelerating industry readiness to implement the National BIM E-Submission (NBES).

BEST managing director and chief executive officer, Yang Kian Lock said, "We are looking forward to support CIDB in enhancing the national BIM library or myBIM Library to the next level and facilitating the adoption of digital twin in smart Facility Management. We are committed to bring about a transformative shift in how facilities are managed, ensuring not just operational efficiency but also a

seamless and intelligent integration of technologies.”

“As we combine our expertise and resources, we envision a construction industry where the adoption of BIM and other digital solutions becomes the norm, fostering innovation and sustainability. The implementation of myBIM Library will offer a new level of convenience and efficiency within the construction industry,” said CIDB E-Construct Services Chief Executive Officer, Rofizlan Bin Ahmad.

About PLYTEC Holding Berhad

Since the commencement of its trading and distribution of building materials business in 1999, PLYTEC Holding Berhad ("PLYTEC") and its subsidiaries (the "Group") have undergone significant growth and transformation. Originally known as Sudut Swasta Group, PLYTEC has expanded beyond its initial focus on distributing building materials. PLYTEC is principally involved in the provision of construction engineering solutions and services. These services include construction method engineering solutions, digital design and engineering solutions and prefabricated construction solutions which are aimed at increasing the efficiency and safety in construction activities via the adoption of industrialisation practices, supported by digitalisation of construction processes. The Group is also involved in the trading and distribution of core and general building materials.
